### RED RUSSIAN BOLSHEVISM. ORGANIZED AND RAMPANT. RIGHT HERE IN NEW YORK

It's of the Lenine-Trotzky Terrorist Brand and Growing Stronger Every Day-Group Here Has 100 Active Revolutionists, With Headquarters at 133 East 15th Street.

By Frederick Lawrence.

First of a Series of Articles Written Exclusively for The Evening World. Organized Bolshevism has obtained a foothoid in the United States. It is growing stronger every day.

growing stronger every day.

It is not an imitation Bolshevism, but the real Russian Lenine- WON'I OVERLOAD Trotzky-Radek-terrorist brand. "Commissioners" sent by Lenine to form Bolshevist groups are the leaders. Russian "Red" literature is flooding the country. Two national conventions of Bolshevists were held in New Bolshevist groups have been formed in Harlem, Brooklyn, the Bronx and Lower Manhattan. Pennsylvania, New Jersey, Connecticut, Delaware, Massachusetts and Rhode Island are scarby States in which Bolshevism has taken root. Indiana, Illinois, Ohio and Michigan are Embarkation Service Ignorant

States is the Detroit group, which numbers 500 active members and many additional hundreds of supporters. The New York City group has 100 active members. In the United States there are approximately 2,500 active members, in Canada 500. By "active" members is meant those who spend all or Leviathan's permanent bunk capacity and all the fights up to the signing approximately all of their time spreading Bolshevist propaganda. Supporting members are those who help financially and otherwise, but who have not stood the test sufficiently to have passed their probationary period, which is necessary before they can be admitted into full membership and ch is necessary before they can be admitted into full membership and Gen. covered book which members must carry with them at all times. The tiny called to The Evening World story twelve of his men killed and seventybook is printed in the Russian language. It sets forth the very brief declaration of Bolshevist principles to which each member must adhere.

Two of these are paramount. One is that all Governments, including the Government of the United States, shall be overthrown by "the violence of social revolution;" the other is that all industry, all property shall be wrested from their present ownership and be vested in the

#### AFFILIATED WITH I. W. W.'S AND "RED" SOCIALISTS.

Closely affiliated with the American Bolsheviki are the Anarchists, the I. W. W.'s and the left, or "red," Socialists. These three organizations work hand in hand. The cause of one is the cause of all. When Seattle laid the hand of the law on the L. W. W., the Bolsheviki, the Anarchists and the "red" Socialists lined up behind the defense of the culprits. The New York for largely increasing the carrying police bomb squad raided an Anarchist group a few weeks ago. The Bolsheviki, the L. W. W.'s and the "red" Socialists came to the assistance of the Amarchists. United States Government detectives agrested five Bolsheviki in Akron, O., eight months ago. The I. W. W.'s, the Anarchists and the "red" Socialists raised a defense fund for their Akron comrades.

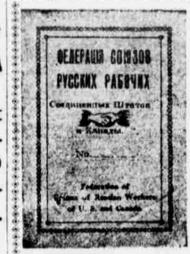

The "one for all and all for one" system has worked very well. The Seattle I. W. W.'s, the New York Anarchists and the Akron Balsheviki for overcrowding the Levinthan or were long ago ordered deported from the country by local Immigration any other troops carrier, in the opin-Bureau authorities. #### came to America. REAL LABOR LEADERS SEE PERIL.

The Akron cases gave the American people their first knowledge that organized Bolshevism had been established in this country and Canada. The seizure of the little red books and other printed propaganda revealed the un-American and unlawful nature of their activities. That Anarchists "red" Socialists and I. W. W.'s had their organizations was not news to Americans. But it came as a shock and a susprise to be informed that real simon-pure orannized Lenine-Trotzky-Radek Balshevisin had arrived.

The Akron cases prompled the writer of this article to investigate the extent of the Bolshevist communation in the United States. The first discovery made was that the Bolsheviki were concluding their efforts to win over members of trades unions. In this they were ably assisted by the L

On Wednesday the final military, naval and air terms of the peace treaty and the northern boundary of Germany will be considered. The Western boundary of Germany will be considered Friday and financial arrangements with Germany Satur.

[As President Wilson is expected to reach Paris by Friday. the terms of the peace treaty will probably be practically com-

pleted when he arrives.] MILITARY TERMS WIPE OUT GERMAN ARMY.

Military Germany will go out of existence as the result of the adoption of the plans of German disarmament as they will go into the peace treaty. These teams provide for a reduction of the German military establishment down to 100,000 men, with 4,000 officers, the army to be recruited by the voluntary system for the period of twelve years.

The effect of this is to limit Germany's military strength for the next twelve years to 100,000 men, which is less than the number of men Switzerland has in her army.

How the German militare ---er is affected in other ways is arown as follows:

All arms and munitions not needed for an army of 100,000 men must be delivered to the Allies or destroyed.

German forts along the Rhine to be destroyed. Imperial General Staff of the

army is abolished. No conscription. All enlistments to be voluntary, and this system may be applied to the

whole of Europe. The original plan of providing for 200,000 men serving one year terms

would have Germany a trained army of 2,000,000 men in ten years. As against this, Mr. Lloyd George proposed to fix the enlistment terms at twelve years. Marchal Foch em-Detectives August Mayer and Grover bodied this in his report, which pro-
